

# ACS / Self-registration

## Upgrade Notice Change Management

Document Classification:	Public
Document Ref.	BPM-2-3-4
	Change Management
Version:	2.0
Dated:	16/May/2024
Document Author:	Héctor González
Document Owner:	Héctor González

As part of the ongoing renewal and continuous improvement process of the Axosnet Solutions Suite, a significant update to our Production Environment is scheduled.

The update will take effect on Monday, May 20, 2024. This release will not affect the availability of our applications, so no additional action is required.

In this document, we present and explain the changes made, as well as their main features.

Sincerely, Axosnet from Mexico

What is Self-registration?

Who is it for?

**Benefits of Self-registration** 

Self-registration (screenshots)

How to obtain ACS/Self-registration?

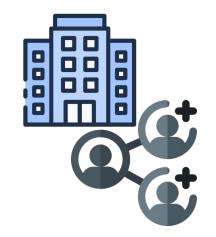

It is a new functionality of ACS designed to simplify and expedite the account registration process for companies and providers.

With this feature, the Legal Representative or designated user can initiate the registration process on behalf of the company directly, in a more structured and comprehensive manner.

## Who is ACS/Self-registration aimed at?

- It is aimed at any organization that wishes to explore our platform (during a trial period) before formalizing registration through the legal representative.
- Additionally, it is intended for providers who are not yet registered, offering them the opportunity to manage their registration directly or by invitation, in order to serve their clients within our Solutions platform.

## **Benefits of ACS Self-registration**

a**×ວs**net

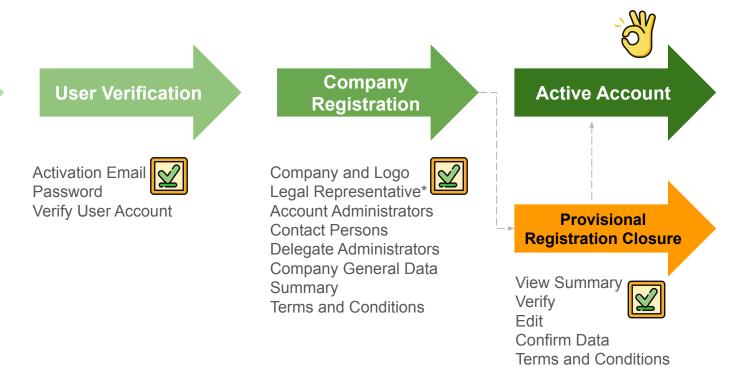

- **Simplified Registration:** Presents the registration process in a linear flow through steps, in a more structured and direct manner.
- **Preview of Features:** Allows organizations to test and evaluate platform features.
- **Greater Control:** Organizations can manage their registration process independently and under control.
- **Speed in Onboarding:** Enables quicker and smoother onboarding to the platform, without delays caused by third parties.
- **Improved User Experience:** By allowing direct registration (without third-party dependency), the overall user experience is enhanced by eliminating potential obstacles, dependencies, or confusion in the process.

## **General Flow of Self-registration**
