Update Notice Change Management

Document Classification:	Public	
Document Ref.	BPM-2-3-4	
	Change Management	
Version:	2.0	
Dated:	31/Jul/2024	
Document Author:	Alicia Torres	
Document Owner:	Alicia Torres	

Axosnet Notice

As part of the ongoing renewal and improvement process of the Axosnet Solutions Suite, a significant update to our Production Environment is scheduled.

The update will take effect on August 12, 2024. This release will not affect the availability of our applications, so no additional action is required.

In this document, we present and explain the changes made, as well as their main features.

Sincerely, Axosnet Mexico What is ACS/Providers?

Changes and Benefits of ACS/Providers

Example of ACS/Providers (screenshots)

How to Obtain ACS/Providers?

ACS/Suppliers is a section of ACS/Management dedicated to *Supplier Management*. This functionality already exists and allows you to invite, add, approve, and deactivate suppliers and contacts.

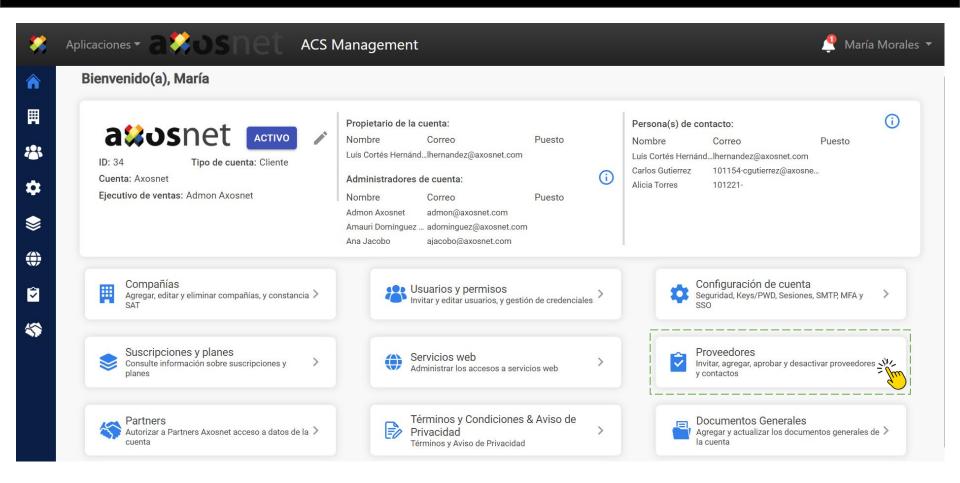

Soon, this section will be updated with adjustments to its UI, reorganizing elements, and introducing some new capabilities. These changes will enhance the control and management of this module.

Changes and Benefits of ACS/Suppliers

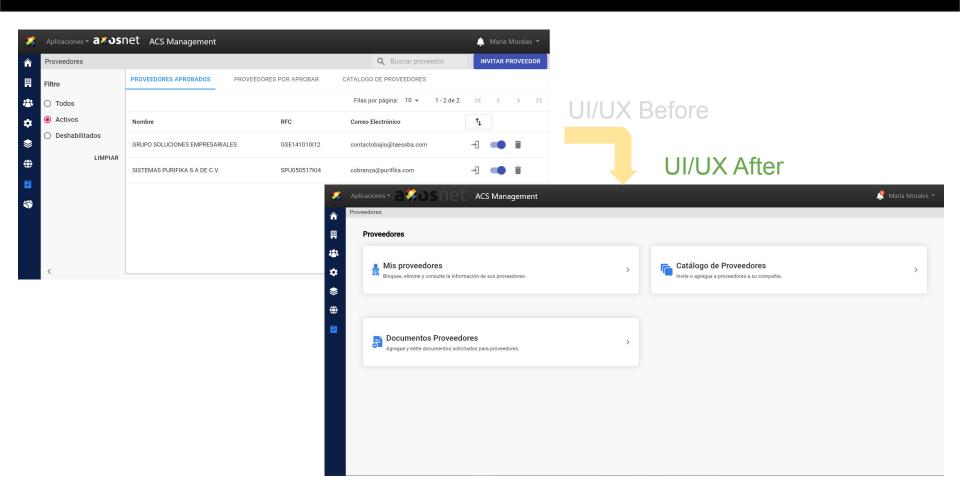

- Card Access: Accessing each section via cards in an options menu facilitates direct and quick navigation to information.
- **Section Integration:** Merging "Approved Suppliers" with "Supplier Catalog" simplifies the management and navigation of suppliers in one place.
- Process States: Introducing states from invitation to approval improves visibility and tracking of each supplier.
- **Revamped Design/UI:** The redesign of screens not only enhances aesthetics but also improves usability and user experience by making supplier management simpler.
- **Document Configuration:** A new "General Documents" section has been added, allowing for easy configuration of required documents from suppliers to create digital files (ACS/Files).

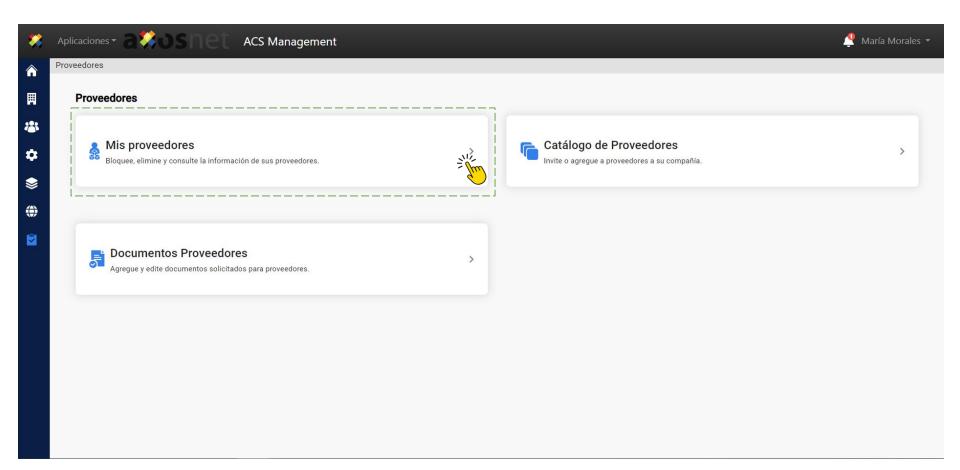

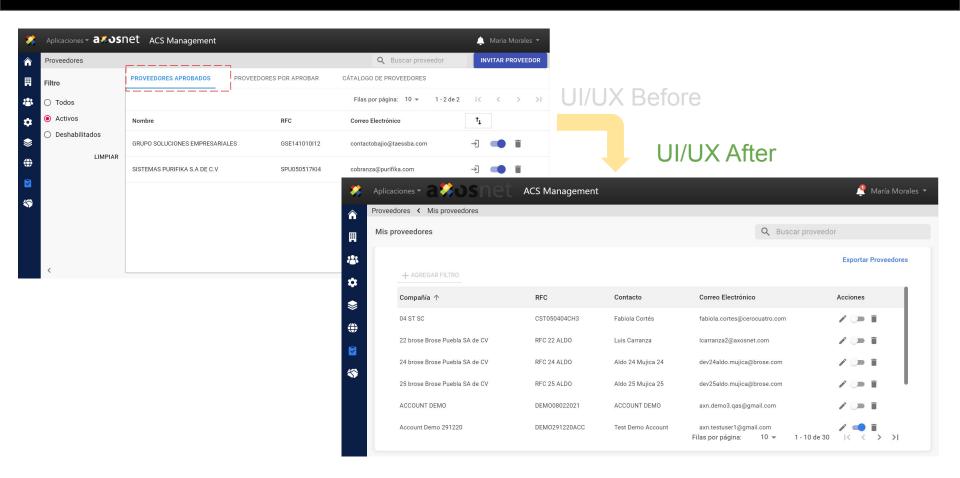

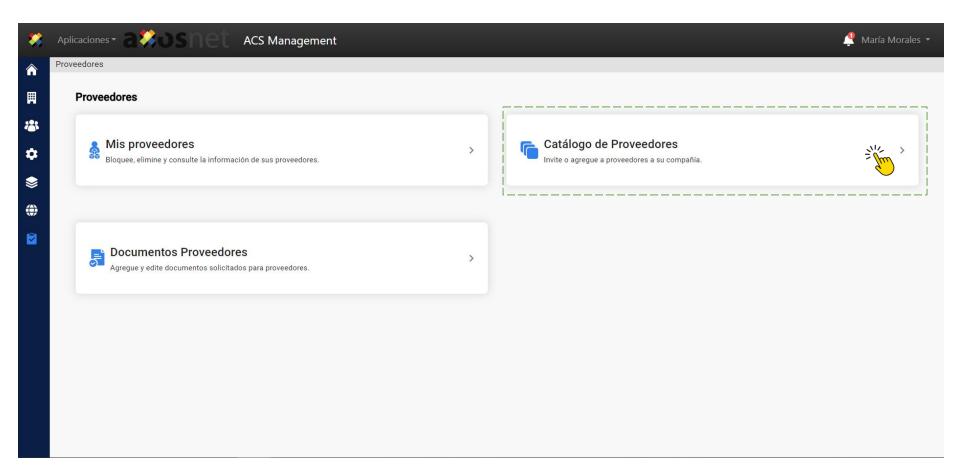

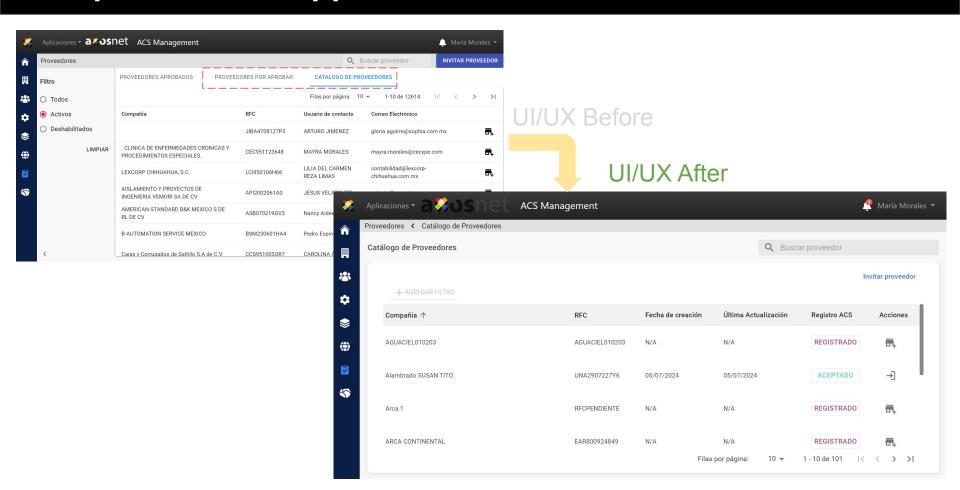

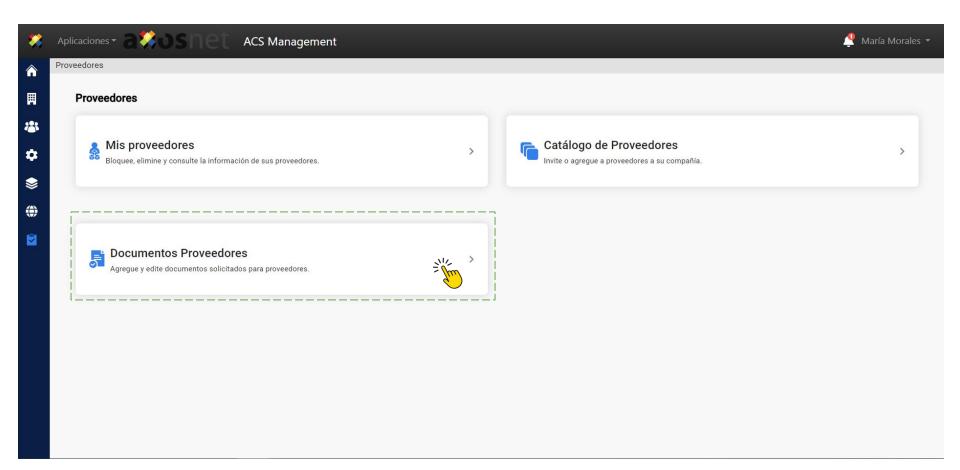

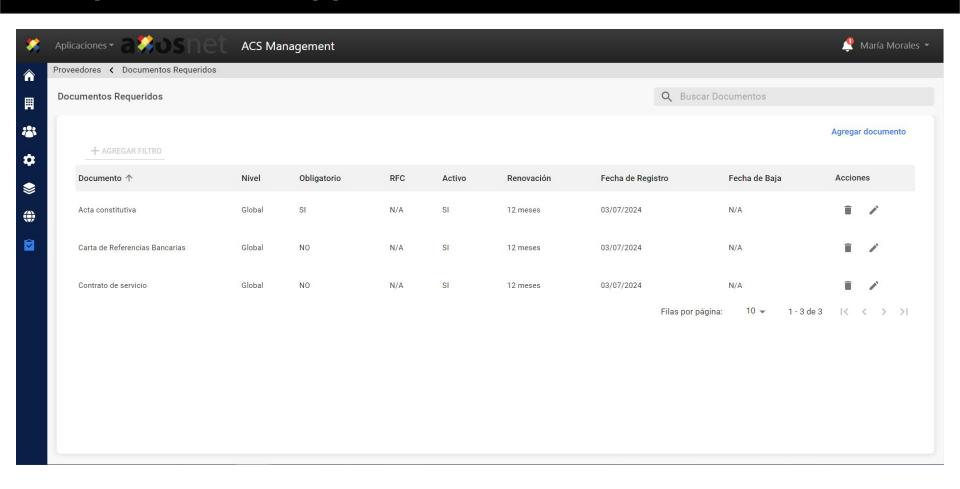

How to Access ACS/Suppliers?

- No action is required.
- ACS/Suppliers is available in all ACS implementations.
- Management of ACS/Suppliers is a standard feature available to the Administrator at no additional cost.
